I have been carrying Earthborn Pottery by Tena Payne for the six years that I have owned The Cook Store. It is by far my number one seller in pottery and except for gadgets, my most popular line. Tena's one of a kind pottery is microwave, dishwasher, and oven safe. As many of my customer say, "Food just lights up on her pieces." I myself own dinner plates, bowls and several serving pieces and have never had a chip or crack that I didn't cause myself.

Tena is a well known artist in the Birmingham area and has grown her business from a part time "extra buck" being made in her home basement to a thriving business now in her independant studio with several employees. She also supplies dinnerware to a nationally recognized local restaurant and many other restaurants across the country, including the Bellagio Resort & Casino in Las Vegas. Her work would be an excellent addition to any store.

A handwritten signature in black ink, appearing to read 'W. Lassen', followed by a long horizontal line extending to the right.

Wesley Lassen, Owner
The Cook Store
