

**HOT AND HOT**  
FISH CLUB

July 21, 2003

Tena Payne's unique pottery has been one of the key elements to The Hot and Hot Fish Club, casual yet a classic dining atmosphere. Each piece of pottery she has crafted for the restaurant has its own distinct style and no two pieces are alike. Her pottery is not only aesthetically pleasing but it can withstand the daily use in the restaurant. When two great products are combined, Tena's pottery and great food, it's considered a true masterpiece.

Magazines and newspapers recognize Tena's pottery locally and throughout the U.S. We have calls regularly requesting the name of the person who makes such striking pieces of art. Tena Payne has a natural gift that no one else has been able to emulate. With all of this said, "Tena's pottery has become a significant part of Hot and Hot's dining experience."

Thanks,

Chris Hastings
